Christian. He is thus spoken of by a New York paper: Right Reverend Patrick N. Lynch, Bishop of Charleston, S. C., left here a short time since, with his Vicar-General, the Rev. D. T. Birmingham, for his diocose, the calamities of which have kept him absent from his country for the last year. The high respect in which Bishop Lynch has always been held by both Catholies and Protestants, North and South, caused the President to permit his return as soon as the war was ended. Although belonging to the South, his charity towards Union prisoners, black and white, for whom he exhausted his resources, and exposed his health in the hospitals and prisons to succer, have justly acquired for him the gratitude of the North.

THE CONCERT of this evening, as we should imagin by the published programme, will be one of the most delightful things of the season, as we see announced one or two of those elegant airs we have heard in former days from the accomplished Mrs. BAILEY and the wellmodulated voice of Mr. O'NEALE. As they are to be as sisted by several amateurs of acknowledged skill, we may look to this as one of the first exhibitions of talent that we have had for a long time; and we hope that a crowded room will reward the efforts of the accom-

SPLENDID ESTATES TO LEASE OR RENT,-An advertiscment will be seen in our columns of two fine plantations to lease or rent-one an estate in Marlboro' District. and the other in Orangeburg District. Both of these are known to be as profitable as any in the State, either for planting or pasture, and are well deserving the attention of persons desirous of possessing such property for a limited time. The owner of these splendid tracts of land being a lady, and, like thousands of other Southerners, unable to conduct the management of the pro perty with free labor, is anxious to transfer it for a term of years to some capitalist accustomed to that system, who will certainly realize large profits from it. A careful reading of the advertisement is requested,

Proceedings of Council.

The third regular meeting of the City Council tool place last night, at the City Hall. Our reporter furnish ed us with a full account of the proceedings, but owing to the late hour of adjournment, we are unable to giv more than a synopsis in this morning's News.

The Mayor called the Council to order. Present-Alderroen Manshall, BROWS, WHILDES, FAULE, STRIN-MRYER, BUTLER, HONOUE, SMALL, CLMREON, ENGTON, OAKES, RYAN, GEROIS and PRINGLE.

The minutes of the previous meeting were read an approved.

A communication was read from Alderman J. G. Mile son, resigning his office, in consequence of the uncer-minty as to residence in the city. His resignation was ccepted, and a new election ordered in Ward No. 1. Various applications were read, and referred to the

Various applications were read, and referred to the appropriate committees.

The Mayor read a letter from Mosses. Catheart, Me-Millan & Morton, proprietor of the Charleston Danly News, inquiring of City Council, how it had happened that the city printing was given to the Charleston Courier, when the conductors of that paper had not handed in their estimate and letter of application, on the day advertised by the Clerk of Council, till after 4 P. M., while the proprietors of The News had handed in their letter at 11½ P. M.—12 M. being the time, up to which the Clerk had stated proposals would be received.

The Clerk of Council being called on, testified to the correctness of the facts as stated in the letter mention—d; upon which, Council referred the matter to the Committee on Contracts.

A, bill of the Charleston Gas Light Company against the city for \$729, had been referred to his Honor the Mayor, by Gen. Bennett, who had endorsed on the paper that as long as the military authority had collected the taxes, they pad for the lighting of the city, at the rate of 183 cents a night for each lamp, but that now the city should pay it. Referred to Committee on Accounts.

The bill to establish a Health Department was next in

counts.

The bill to establish a Health Department was next in order, and came up for a second reading. Alderman Brown objected to it on the ground of economy, alleging that there was no necessalty for this interess of physicians for the poor; that the old system had worked very well; that he had heard no complaint, and that the city was too poor to engage in so expensive an enterprise at this time.

Alderman Honour objected that it was too complicated, and that the City Registrar already performed the functions contemplated by this bill for the chief physician. There was a long debate on this matter; and the bill, after being variously modified, was passed and read a third time. It provides for the election of six physicians for the poor, who are to report to the City Registrar. The satary to be six hundred dolla's per annum. The bill lies over to the next meeting for ratification. On motion to elect a City Apothecary. Alderman Steinmeyer moved an Ordinance that hereafter there be two City Apothecaries.

Reports were now read from the several Committees. Alderman Whilden, from the Committee on the Fire Department, reported that they have not had time sufficient to give the subject the consideration necessary, and that the Committee respectfully begs for further time to prepare their report. In the mean time, however, he recommended Council to advise the several irre companies without an apparatus at this time, to endexor to supply themselves with steam engines, and moved that City Council offer a reward of \$500 to the first volu neer fire company who would supply themselves with a steam engines, and moved that City Council offer a reward of \$500 to the first volu neer fire company who would supply themselves with a steam engines, and invested that City Council offer a reward of \$500 to the first volu neer fire company who would supply themselves with a steam engines, and inquiries at Baltimore, Philadelphia and New York, in reference to this matter. Steam engines were almost exclusively used in all the cities,

The report was ordered to lie over till the next meeting.

The Committee on Streets report that Last Bay, from Market-street to the Battery, and Broad-street, from East Bay to Meeting-street, require paving at once; and they would recommend Council to advertise for estimates as to the best modes of paving.

The Mayor stated that the city had no contract at present with the Gas Company for lighting the streets; and, as had been stated at an earlier part of the meeting, the military authorities decline to pay for it any longer, some plan must be adopted at once. Upon consultation with the President of the Gas Company, he learned that 1227 lamps is the complement of the city; the number of corners between five and six hundred, and that these could be lighted at fifty per cent, advance on former rates, say at about \$48.5 per annum for each lamp.

Alderman Whilden moved that the matter be referred to the Committee on Lighting the City, with power to act from month to month till a permanent arrangement

act from month to month till a permanent arrangement be made.

Alderman Steinmeyer moved that all the resolutions, passed by Council during the war, increasing the salary of city officers, be herewith rescinded, and that all salaries that may hereafter fail due be paid at what they were previous to the war.

Alderman Oakes moved that the Clerk be instructed to give notice that Council, at their next meeting, would elect an Inspector of Flour.

Council next proceeded to elect the several Boards of Commissioners, as follows:

COPARTNERSHIP.—It affords us much pleasure to oberve that Messrs. Chas. T. Chaig, John Tuomey, and R. W. Lockwood, have entered into business together for the transacting of the ship chandlery and shipping and comraission business, at No. 48 East Bay, the store formerly occupied by NAYLOR & SMITH. These gentlemen are well known in the community as industrious and energetic in any matter which they may undertake. and we, therefore, predict for them, in their present avocation, a large and prosperous business

The railroads of New England and the Middle States are doing a good business, and the traffic in freight and passengers is so large as to call for additional facilities and new routes. The extension of the Harlem Railroad northward from its present terminus at Chatham. N Y., to Benningten, Vt., so as to connect with the Western Vermont road, at that point, and thus form a straight line from New York to Montreal is a matter settled upon between the directors of the Harlem and Vermont roads. The estimated expense is two millions one-half of which has been subscribed, and as further aid is promised by responsible parties, the early completion of the line is considered as certain.

The surgeon having charge of the sanitary condition of the freedmen in North Carolina, under the auspices of the Freedmen's Bureau, has forwarded to that department a retrospective report of the condition of the blacks in that State during the last three years. In the large colonies yellow fever and smallpox have raged with great fatality from time to time. The mortality at Fort Anderson, where is located one of the largest freedmen colonies in North Carolins, is described as being unprecedented this spring, during the provalence of the cellow fever epidemic, over two thousand deaths occurring in less than two months. The condition of the freedmen is said to have constantly improved this fall, and the contagious diseases are effectually checked.

In the controversy between JUDGE BUSTEED and Gen. Wood, in Alabama, it is stated that the latter has been sustained by the President.

The House of Commons, of North Carolins, on the 29th November, passed the Constitutional Amendment abolishing slavery, by a vote of ninety-nine to four. It is thought the Senate will pass it also
